Theory of Operation Information

This group divides the power train into individual components or systems by function. The story contains information on function, component, or system identification and theory of operation.

The following systems or components are covered:

- Clutch Operation
 - Traction Clutch Engaged/PTO Clutch Disengaged
 - Traction Clutch Engaged/PTO Clutch Engaged
 - Traction Clutch Disengaged/PTO Clutch Engaged
 - Traction Clutch Disengaged/PTO Clutch Disengaged
- Transmission
 - Lubrication System
 - Gear Shift Power Flow
 - Range Shift Power Flow
- Differential Power Flow
- Differential Lock Operation
- Final Drive Operation
- Rear PTO Operation
- Mechanical Front Wheel Drive Operation
